Dear Dick

Enclosed are the originals of Staff Cadet Loughrey's sketches.
Could you please return them to him.

Three copies have been taken. These have been distributed as follows:

1. Mr. Eric Duve, Head Office, Dept of Supply
2. Capt F.R. Adlam, OC, P&EE, Port Wakefield
3. Held by Scientific Services Office (W.O.1 Abbott).

The meeting with the Dept of Supply representatives on Friday 25 Jun 71, led to a request that copies of these sketches be made available to the Dept of Supply.

On the basis of these Mr. Duve proposes to submit to the Supply a proposal that a Dept of Supply draughtsman be made available to assist Staff Cadet Loughrey in producing more detailed drawings showing the principal dimensions of components. These drawings should then be submitted for consideration by S.A.F., Lithgow.

Yours sincerely,

(J.A. FLETT)
